# Caloric Irrigators Air or Water

The Interacoustics irrigators offer a choice of stimuli, either water or air, for caloric testing during the VNG test protocol

# Air Fx Caloric irrigator

## Highlights:

- Cooling and heating ability: 20°C to 50°C
- Illuminated and magnified otoscope
- Self-contained cooling ability
- Integrated with the Interacoustics VNG software

Caloric test with the VisualEyes™ 515/525 software

## Versatile Caloric Air Irrigator

The AirFx caloric irrigator has many benefits. It offers an otoscopic handle with illumination as well as magnification. In addition, irrigations can be started using the start button on the handle or via the VisualEyes™ 515/525 or VN415/VO425 software

The Air Fx is available in 110-130 V and 220-240 V configurations, and is available world-wide.

An integrated water reservoir allows for cool air irrigations down to 20°C regardless of ambient temperature, making it suitable for warm climate use. For warm air irrigations, the Air Fx is capable of heating air up to 50°C.

Temperature Accuracy and Stability is within +/- 0,5°C, and air flow stability is within +/- 0,5 L/min.

# Aqua Stim Caloric irrigator

Can be operated from the VisualEyes™ 515/525 or VN415/VO425 software.

## Versatile Caloric Water Irrigator

The Interacoustics Aqua Stim offers reliable caloric irrigation. The Aqua Stim can be used as a stand-alone device, or you can control it from the VisualEyes™ 515/525 or VN415/VO425 software.

Irrigation is started by simply pressing the start button on the handle one time to initiate the user-defined caloric protocol.

An external water tank has capacity for approximately 14 irrigations, and eliminates the need for a drain in the examination room.

The Aqua Stim is available world-wide and is supplied as a 110-130 V or 220-240 V model.

### Highlights:

- 30°C cold and 44°C warm irrigations
- Use with the Interacoustics VNG software or as stand-alone
- LED illumination and start button in handle
- Eliminates the need for drain and faucet in examination room

Included external water tank

## Interacoustics

Interacoustics is a world leading provider of diagnostic solutions in the field of hearing and balance assessment. Since 1967 we have designed and manufactured our innovative diagnostic solutions for the world of audiology with a constant focus on providing our customers with quality, dependable products.

## With you at all times

We operate in over 100 countries worldwide through a carefully selected network of distributors and service centres. Purchasing an Interacoustics product guarantees not only a quality product, but also direct access to our highly professional training and support service.

## Product specifications

All technical and hardware specifications concerning the Air Fx and Aqua Stim Caloric Irrigators can be downloaded from our website.
